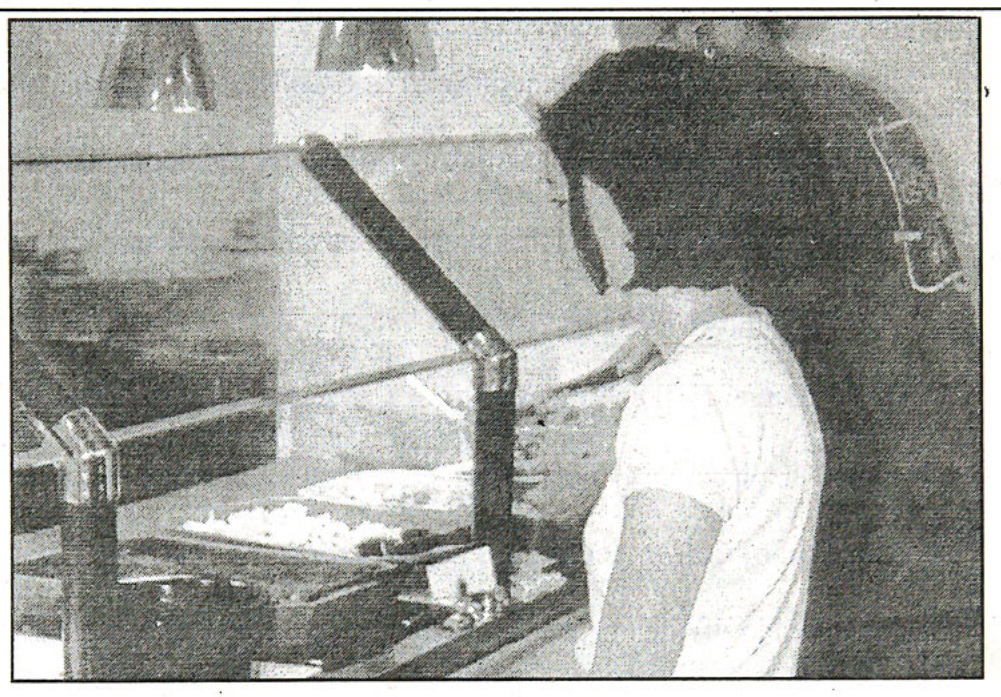
# Students React to Cafeteria Changes



**Nan Gould waits in line at the cafeteria.**
***Leonard J. Umhoefer JR. Photographer***

**Jen Hawley**
**Staff Writer**

Saint Leo College's cafeteria has undergone some changes since last year, and these changes have met with a mixed response from Saint Leo's student body. Ms. Kathy Hillard, Assistant Manager of Food Services, is proud of what her department has to offer this year. Some new features have been added, and some old features have been changed for this year's food line-up. "Showtime Cooking" attempts to add variety to every lunch and dinner with things like stir-fry and various carved meats. The cafeteria tries to cater to health conscious students with the addition of more vegetarian dishes. Both the salad and deli bars contain a wider variety of choices than they had last year. Perhaps, most importantly, the lunch hours have been extended from 11:30a.m.- 1:30p.m. to 11:00a.m.- 2:00p.m.. The dinner hours now range from 4:00p.m.- 8:00p.m.. For students who are unable to come to the cafeteria during its operating hours, the Cage Snack Shop and Subway are available.

Despite the good intentions of the Food Service staff, not all students approve of the way the cafeteria is run. Junior, Tammy Cade is less than thrilled with the cafeteria's hours. She complains, "I have a late class, and I have to skip dinner on Wednesday night. This type of complaint is common. The Cage is now serving food after the cafeteria's hours, but that only started a couple of weeks ago. Subway only opened in the last few weeks. A supplemental system only works when the supplements are available. Even now, the meal plan doesn't apply to Subway; however, Bonus Bucks, Monarch Money, or cash may be used.

Senior, Amanda Camp feels that, "It's food. It's not bad. They just need more variety." The need for variety is a complaint voiced by many. Jamie Palandro, also a Senior, thinks, "It's horrible." However, she is not totally negative: "There are certain things that good, like the stir-fry." Not everyone is displeased. Leigh Wazocha, a Junior who recently transferred from PHCC, enjoys eating in the cafeteria. She points out that some colleges don't even have a cafeteria, while Saint Leo serves full meals. She finds the selection to be both varied and wholesome. Ultimately, it is up to the reader and the eater to decide what they think of the changes in the Saint Leo cafeteria.

# Director of Admissions Arrested for D.U.I.

As seen in the Tuesday, September 22 issue of the **Pasco Shopper Newspaper**. St. Leo-- Conrad Hinckley, director of admissions at Saint Leo College, was charged with drunken driving last week in Hernando County. Hernando sheriff's deputies said Hinckley, 44, of Dade City, was driving with an amount of alcohol in his blood nearly twice the level at which Florida law presumes impairment. He was also cited for driving with an expired driver's license from the Caribbean island of Antigua, the Hernando Sheriff's Office reported. The sheriff's report said Hinckley was pulled over Thursday at 10:30pm on Spring Lake Highway. The deputy accused Hinckley of running a stop sign and nearly losing control of his car. Hinckley, who told deputies he had drunk half a bottle of wine, failed several road sobriety tests, the sheriff's report said. His blood-alcohol level registered at about 0.14 percent. The level at which impairment is presumed is 0.08 percent.

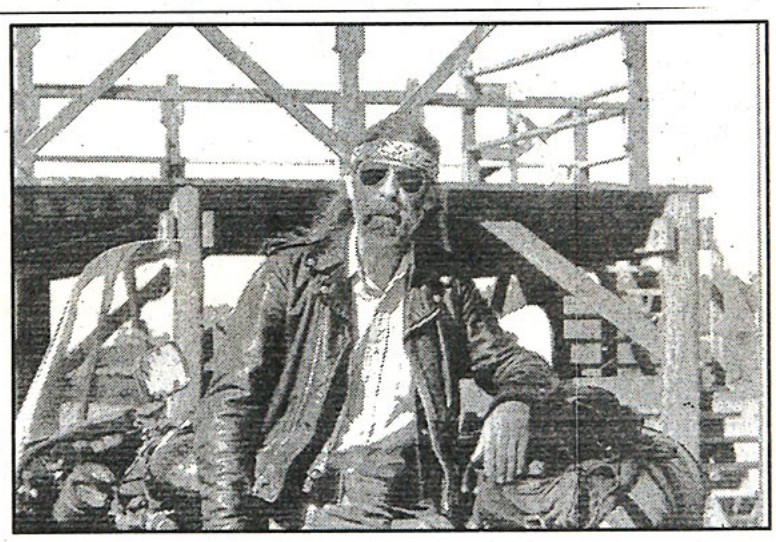
## A Plea to the Residents of Saint Leo College

Last year I too was a resident of Saint Leo College. This year I am commuting from Tampa. This change has allowed me to observe a parking problem on campus. Many dorm residents insist on driving their cars to class. I did the same thing last year. I didn't realize what a problem this caused commuting students. Commuters battle weather and traffic jams that often cause them to arrive on campus with just moments to spare, if even that, to get to class. I constantly find myself either circling the lot between de Chantal Hall and the Activities Center for 20 minutes, or I am forced to park behind Henderson Hall on the grassy patch. Then I still have to walk to my class. On-campus residents do not have to battle traffic or drive in bad weather. It takes them the same amount of time to get to class almost every day. Instead of attempting to request a separate commuter parking or other actions that would divide our student body, I make a plea to all residents: Please consider walking to class as an alternative and help out your fellow students. By: Kate Futrell, Editor-inChief

## Book Announcement

***LONGRIDER*** By: Dr. Mark "Tiger" Edmonds

The long awaited release of Dr. Edmonds' new book is upon us. Take a BMW motorcycle, one million miles, and Mark Edmonds. Distill for thirty-five years. Result? You get an insightful, compassionate (and passionate) view of America and what it means to all of us who, after all, are "just passing through." Copies are on sale in Dr. Edmonds' office on the first floor of Lewis Hall. The cost is a mere $11.00. And, yes, he accepts checks.



**Dr. Mark Edmonds poses with his motorcycle.**

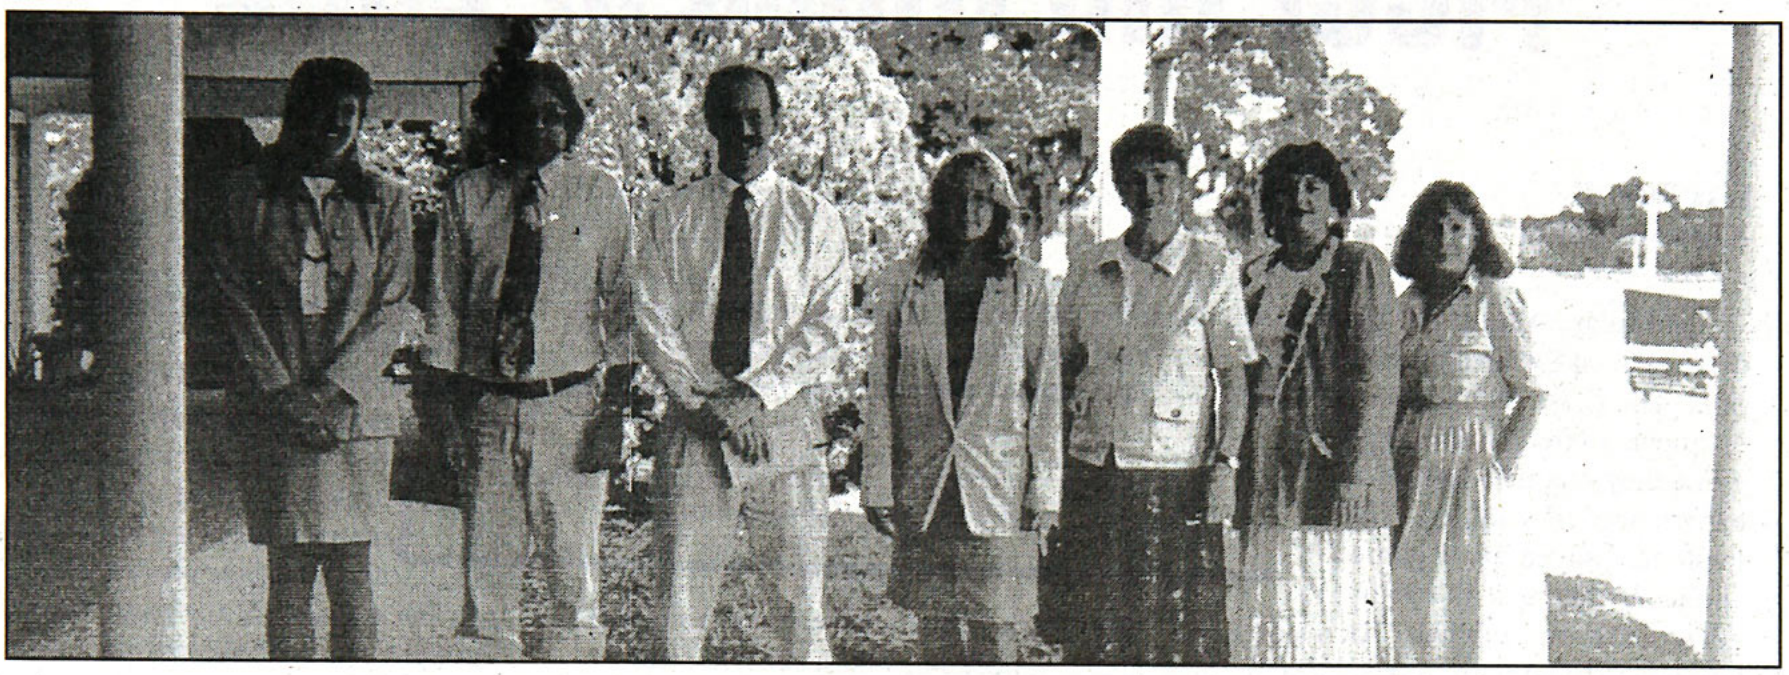
# Meet New Faculty



**Left to Right: Dr. Jacci White; Dr. Edward LaFontaine; Mr. Stephen Wingreen; Dr. Sharon Carr; Dr. Adrienne Shannon; Dr. Karen Hahn; Dr. Patty O'Grady. Not pictured: Dr. Marilyn Hall; Dr. Joy Innis; Dr. John Pantzalis.**
***Leonard J. Umhoefer JR. Photographer***

**Sister Dolorosa**
**Staff Writer**

**Dr. Sharon Rebecca Carr** is a new Visiting Assistant Professor of Physics and Mathematics. Dr. Carr holds a Ph.D. in Interdisciplinary Education and her M.A. in Educational Supervision from the University of South Florida and a B.A. in Animal Science from the University of Florida.

**Dr. Karen Hahn** is the new Director of ADA Learning. Dr. Hahn has taught undergraduate courses in elementary education and in the specific disabilities program for Saint Leo College as an adjunct professor. Dr. Hahn holds a Ph.D. in Curriculum and Instruction with a specialization in Special Education and cognate in Educational Leadership from the University of South Florida and M.S. from the College of New Rochelle.

**Dr. Marilyn Hall** joins us as a Visiting Professor of Accounting. Dr. Hall has taught for us as an adjunct faculty member on campus and at MacDill AFB. She holds a D.B.A. from Nova University.

**Dr. Joy Innis and Dr. Adrienne Shannon** are sharing a position as Directors of the Arts Program and as Assistant Professors of Music. Accomplished pianists, they come to us from Western Canada where they were performing and teaching. Both have Ph.D.s from Ball State University. Dr. Innis has her B.A. from The University of Toronto; Dr. Shannon has a B.A. from The Juilliard School of Music. They have performed throughout Asia, Canada, and the United States.

**Dr. Edward LaFontaine** joined Saint Leo College as the Assistant Vice President for Academic Affairs for the Freshman Year Experience in August. He was Dean of Students and Associate Professor of Sociology at Keuka College from 1986 through 1998. In addition to administrative duties, he will teach Sociology and freshman experience courses. He received an M.Ed. from St. Lawrence University and an M.S. and B.S. from The Ohio State University. He has his Ph.D. in Sociology from the University of Kentucky.

**Dr. Patty O'Grady** joined the Education faculty as a Visiting Associate Professor of Education. In addition to teaching, she will complete our study of the area needs for B.A. and M.Ed. programs in Special Education. She was an Associate Professor of Education and Department Chair at the University of Maryland College Park and at the University of Maryland Eastern Shore, where she restructured the Special Education program to meet state and federal guidelines. She has her Ph.D. from the University of Maryland.

**Dr. John Pantzalis** is our new Associate Professor of International Business and Marketing. He earned his M.B.A. in Finance and International Business and his Ph.D. in Marketing from the University of Arizona. He has taught at University of Arizona, Oklahoma City University, City University of New York, and the Guangzhou Institute of Foreign Trade in Guangzhou, China.

**Dr. Jacci White** is our new Assistant Professor of Mathematics. Her doctorate was conferred last month from the University of Central Florida. Her B.A. is from Rollins College, where she was Most Valuable Player on the Volleyball team. She has extensive experience in developmental math education and provides us with the ability to revise our math curriculum to meet students' needs.

**Mr. Stephen Wingreen** joins us as a Visiting Professor of Computer Information Systems. He received his M.S. from Florida State University and B.A. from Southeastern College. He will also be working with Dr. Moorman to design and develop at least two courses for presentation on the Internet.

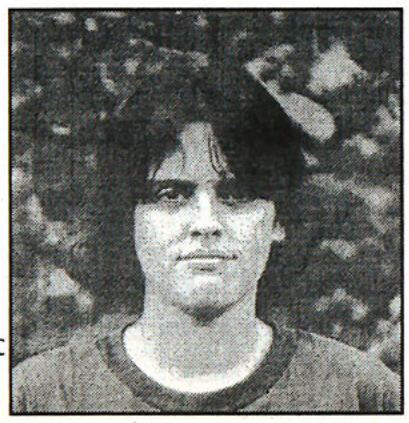
# Meet the Class of 2002

**Lisa Bisordi**
**Assistant Editor**

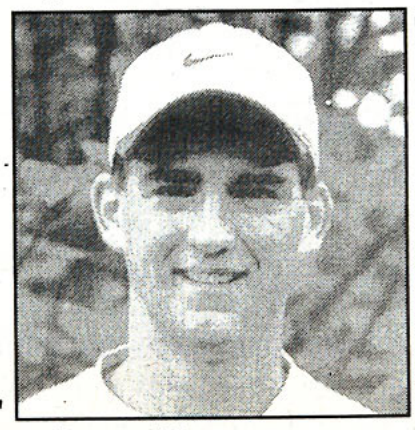
On Friday, August 28, 1998, students arrived for Freshmen Orientation. The Class of 2002 was full of excitement, anxiety, and energy while they met new people and experienced new things. The freshmen played name games and ice breakers in an attempt to get to know one another. Their orientation was filled with things to do, barely leaving any time to spare. One of the major parts of the orientation was a fun-filled trip to Disney World. Many of the students feel that orientation took their mind off leaving home. They had so much to do that they hardly had a chance to think about leaving their homes and families.



**Marie Fernandez**

The students who make up the class of 2002 are from all over the world. They came from, as close as Clearwater, Florida, to as far as England. Many freshmen are from Florida and New York. Others have come from Indiana, Connecticut, Massachusetts, and many other states. The freshmen feel they adjusted easily to collegiate life. Once they made friends, and formed bonds, it became easier to feel at home at Saint Leo. "Saint Leo College has a very friendly atmosphere," says Albert Torres Jr. from New York, "I feel very safe here."

*"Saint Leo College has a very friendly atmosphere"*
**Albert Torres-Freshman**



**Bryan Meyer**

The freshmen are required to take a Self-Awareness course and an Introduction to College course. These courses aid in preparing freshmen for collegiate life. It is also recommended that the freshmen take English-121 and a Mathematics course their first semester. Most of the freshmen are enjoying their courses and like their professors.

The majority of the freshman class brought cars with them from home. Therefore, they do not really find themselves secluded from places they need to go. Saint Leo College is a beautiful campus that has most everything a student needs on campus. The freshmen are still in the process of getting used to life here at Saint Leo, but their enthusiasm concerning their academic future appears strong. Erika Elmer, a freshman, states, "I am looking forward to four fulfilling and exciting years at Saint Leo. I feel there is a good curriculum and great programs that interest me."

# My Summer in Louisiana: by —Sister Dolorosa

My summer in Louisiana was spectacular as I found myself in a circle of people from across the country who had lots of love to share. It was at the Institute for Black Catholic Studies (IBCS) of Xavier University of Louisiana, whereby in family-oriented togetherness, students, faculty, staff, guests, friends, guest speakers, and elders joined hands to celebrate their gift of life and that of others.

It was a three-week program, and each day began with an active and uplifting Morning Praise, which was expressed in rhythmic music, drumming, dance, a short play, scripture, prayer, healing, and personal reflection. Every participant was welcome to share his or her personal skills and creativity in this function, either by planning, facilitating, participating, or just enjoying it. Classes followed immediately after and continued till four o'clock. Between classes, we had our lunch break, which was preceded by the Eucharist celebration.

The Institute offers an opportunity for intellectual, professional, and spiritual growth within the Black Catholic context of Xavier University and New Orleans. As an interdisciplinary program, the Institute curriculum explores its various components from diverse African American views. The curriculum includes Theology, History, Pastoral Theology, Spiritual Aesthetics.

Every summer, the Institute for Black Catholic Studies offers Certification and Enrichment Programs, which fall under four divisions: Master of Catechist, Youth Ministry, Leadership in the Faith Community, and Vocation / Formation Enrichment. These three-week programs are spread over three summer sessions, and all students in Certification and Enrichment, choose two major courses from Doctrine, History, Scripture, or Liturgy. They also, participate in seminars in Black Religious Expression, which includes Art, Dance, and Drama.

# Residence Hall Restrictions Revised

**Lisa Bisordi**
**Assistant Editor**

Many students who live on campus are very pleased with the new rule changes. For those of you who do not know, visitation hours have been altered. The new rule that applies to Henderson, Benoit, Roderick, and Alumni is: a person of the opposite sex will be permitted to visit a student's residence hall until 2:00 a.m. during the weekdays (Sunday-Thursday), and there is twenty-four hour visitation over the weekends (Friday-Saturday). On holidays, when there are no classes the following day, there is also twenty-four hour visitation. Marmion/ Snyder's visitation is: persons of the opposite sex are allowed in a student's room until 2:00 a.m. during the weekdays (Sunday-Thursday), and over the weekends until 3a.m. (Friday-Saturday). On holidays, when there are no classes the following day, visitation is allowed until 3a.m.. No co-habitation is allowed in the residence hall rooms. This means that two people of the opposite sex can not be living together on campus, in the same room. The repercussion for disobeying these rules is documentation. Documentations are recorded with Residence Life, and punishments for disobeying the rules are decided after assessment of the particular case.

This change of visitation rules was made by the Board of Trustees. Dr. Arthur Kirk and Dr. Maureen Powers supported the decision. There has not been a problem with students opposing this decision. Helen Santamaria, a sophomore who lives on campus, states, "I think that the new rules are good. They give students more freedom, and a better chance to show responsibility." However, these new rules can affect students who have roommates. It is still necessary for students to be respectful of their roommates. The residents must agree with each other and feel comfortable in their living area. After all, everyone should feel comfortable in his/her own room. Amy Gougherty, a Resident Assistant for Henderson Hall, gives her opinion, "As long as people respect each other and their roommates, the new rules should not be a problem. Residents must live responsibly, and it will be fine. It really all comes back to personal responsibility and respect for roommates."

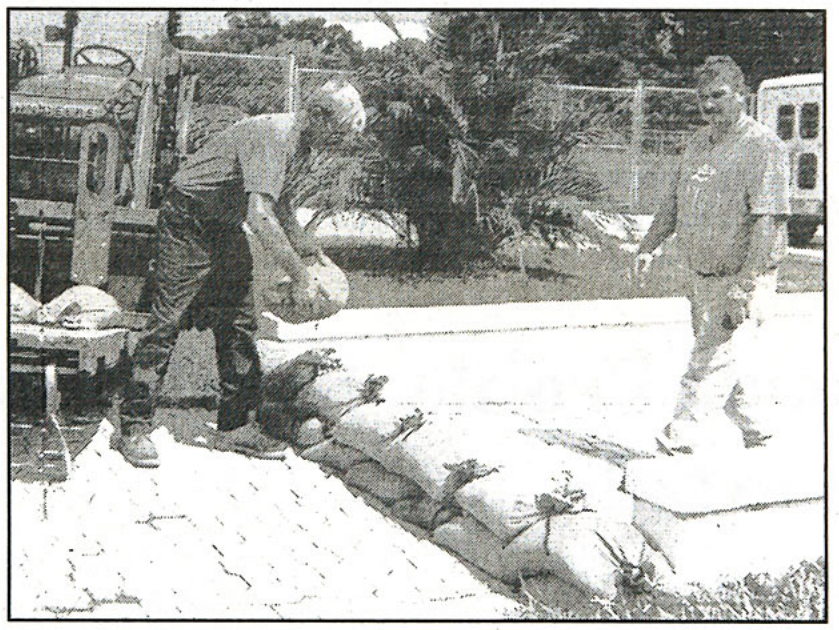
There will be a meeting this month in which implementing a Judicial Board will be discussed. This Judicial Board will consist of students, faculty, and staff. The purpose of the board will be to hear the appeals of students cases. Jason Zelesky, Director of Residence Life, is in favor of this board, "This will give the students, who felt they were unfairly dealt with, a chance to appeal their case." In cases when a student has been, for example suspended, he/she would be able to present his/her case to the Judicial Board and state reasons for the unfairness of the repercussion which was applied to him/her. The board will then review the case.

# Channel 61. . . where are you?

**Drew Damecki**
**Staff Writer**

Returning Saint Leo students probably have great memories of the exploits of WSLC, Channel 61. Where else could you catch "Vegas Vacation?" Well, you could probably see it on one of the pay movie channels, but they would only show it once a day, maybe twice if you are lucky. Only on our Monarch TV were we able to watch the movie as many times as we wanted thanks to the continuious replay. If you missed a part, no big deal, because you could always catch the movie next time. Channel 61 even became addictive to some students, Senior Geoffrey Niebaum told the Monarch, "The Breakfast Club was on a couple of days, and I even missed a class to watch it over again."

Students may not be able to enjoy Channel 61 for some time. It seems that certin audio and video difficulties have curtailed the Saint Leo cinema from resurrecting itself. Financial difficulties at this point have caused the void in our lives that was once filled with bootleg "The Simpsons", now shows only static. Let us hope this lost entertainment will once again be piped into our rooms.



**Plant Operations employee Charlie Staple helps Saint Leo prepare for the hurricane that never came.**

# Sports

## Male Profile: Mike duDomaine, Cross-Country

**George Root**
**Co-Sports Editor**

Many have probably seen Mike duDomaine running or biking around campus, but few know the story behind the athlete. He is a senior Secondary Education major, and a member of the fledging cross-country team at Saint Leo. So far this season he has competed in two meets for Saint Leo. In the first meet, he placed 33rd out of approximately 102 runners. That constituted a 5th place conference finish. He followed up that performance with another 5th place conference finish in a meet at Melbourne. Other teams in the conference include Eckerd, University of Tampa, Florida Southern, Lynn, Florida Tech, and F.I.T.

duDomaine's athletic endeavors go beyond the cross-country team. He is currently training for the Atlanta Marathon in two months. In January, he will race the Walt Disney Marathon. Besides competing in marathons, he also competes in triathlons. The triathlons usually include a one-mile swim, 10k run, and a 25 mile bike. A couple of his goals include breaking 35 minutes in a 10 k, three hours in a marathon, and finishing a triathlon in four hours and thirty minutes. In the year 2000, he hopes to qualify for The Ironman in Hawaii.

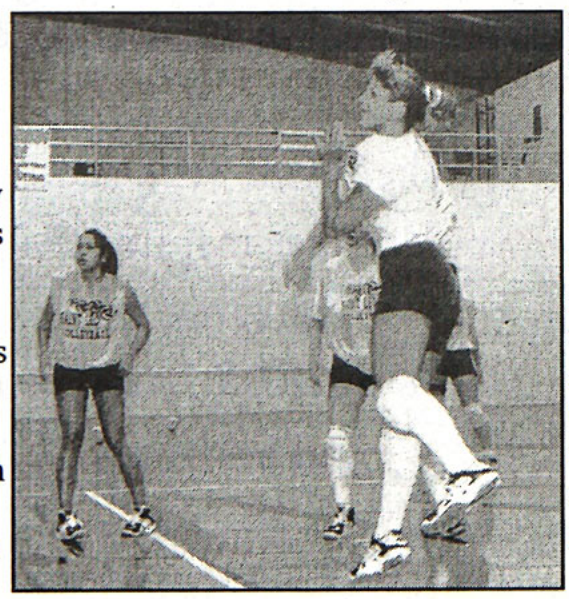
Mike puts in close to one hundred and thirty-six miles a week: 30 running, 100 biking, and six swimming. Carbo-loading is the biggest part of his diet, coupled with drinking a lot of water. Beyond his running, which he began his senior year in high school, he is a member of Tau Kappa Epsilon, Ambassadors, student athletic committee, and is a Resident Assistant. His fraternity brother and cross-country teammate, Dennis Jones, stated that "Mike is the hardest working person I know. He trains religiously, has a lot of endurance, and has a lot of big plans for the future." This Georgia native is definitely one of Saint Leo's most visible examples of athletic dedication and determination.

## Female Profile: Sarah Doctor, Volleyball

**George Root**
**Co-Sports Editor**

Sarah Doctor, in her second year with the volleyball squad, is well on her way to having another record breaking year. She leads the 9-6 Monarchs in attacking percentage (0.3000), assists (451), assists per game (0.60), service aces (31), and service aces per game (0.60). Last year she came to Saint Leo from Onondaga Community College where she was a first team All-American. She is the setter for the Monarchs and last season set a new school record for assists in a season with 965.

The co-captain said her most memorable game, as a Monarch, was the November 8th match at Rollins last year. The Lady Monarchs took Rollins in four games, and Doctor turned in a stellar performance with 20 digs and 54 assists. Coach Lent commented that, "Sarah has really made a commitment to get in shape in the off season. "She quarterbacks the team from the setter position." April Phelan commented, "Sarah is the best setter I've ever played with on any level." One of her goals for the team this year is to take the next match from Florida Tech.



**Sarah Doctor practicing with her teammates.**
***Leonard J. Umhoefer JR. Photography***

Sarah is majoring in Criminology and hopes to attend law school at Syracuse. One of her personal goals is, "Through commitment and love for the sport, to provide team leadership and be a positive role model." In her spare time, which is very scarce, she enjoys reading, running, and listening to all kinds of music. She is a glittering personality who is always smiling. It's a shame there aren't more athletes like Doctor.

## Sports Column: Baseball 1998; A Slug Fest

**Sean Golden**
**Freelance**

The 1998 baseball season was one to remember. There were many highlights which will be remembered for years to come. The first, of course, is September 8, 1998, which will go down as one of the greatest days in Major League Baseball history. This is when Mark McGwire hit his 62nd homerun to break Roger Maris' record of 61. This is a record that people thought would never be broken. McGwire then went on to hit 8 more to finish up with 70 homeruns. Chicago Cubs slugger, Sammy Sosa was close behind with 66.

The 1998 New York Yankees had an amazing year. First of all, in the early part of the season, pitcher David Wells threw a perfect game. This was the first one in years for the Yankees. The biggest highlight for the Yankees was their 114 wins.

The biggest disappointment this season has to be the 1997 World Champion Florida Marlins. A year ago they were the best team in the majors. This year was an absolutely horrible year for the team. Many of the players who were on this great championship team have since moved on or have been traded. Now, the manager of the Marlins, Jim Leyland, has resigned from his position.

Those are just a few things on the 1998 baseball season. Don't worry; there are many more highlights to come. This is October, the greatest time of the year for baseball with the playoffs and World Series just around the coner.

**Wanted: Letters to the Editor**

If you have an opinion on the rules, food, dorm halls or anything else associated with student life let your voice be heard. Letters can be dropped off at the Monarch Office, in deChantal Hall.

# Fall Sports Update

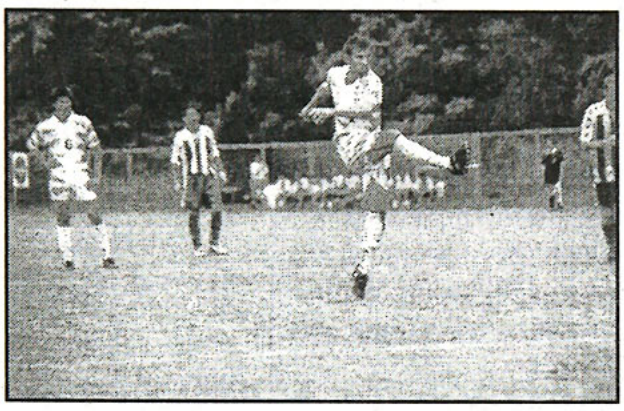
**Kelly Kohn**
**Co-Sports Editor**

The 1998-99 **intramural sports** began with a softball tournament. The nine teams have signed up to play in the tournament, and two teams are co-ed. The teams will play in a double elimination tournament. All games are played on the softball field at 4:30 p.m. or 5:30 p.m., Monday-Thursday. The next intramural sport will be flag football.

The **women's basketball** team for the upcoming season is a mixture of six returning players and seven new players. The returners include three seniors, Telica Phillips, Kelly Kohn, and Donna Ferguson. Last year's team achieved the most wins in the school's history with a 16-14 record. The new players include two juniors and five freshmen. Coach Hayes looks forward to an exciting year, "We have such a strong combination of young and old, which gives us a good mixture, and I hope our leadership will step-up and deliver when we need it."

The **men's soccer** team has been ranked as high as 14th nationally, but this season has been one of adjustment. The team has seventeen freshmen, so they rely heavily on senior leadership from former Sunshine State Conference player of the year Jon Akin. He lead the nation in scoring his sophomore year. Coach Reedy focuses on the importance of a team, instead of just one individual, "You can't put it all on one player because other teams know about Jon. All eleven players are important." The team stands with a record of 3-3-1, with conference play to begin this week.

The **men's and women's cross-country** teams are in their first season at Saint Leo College. It is a non-scholarship

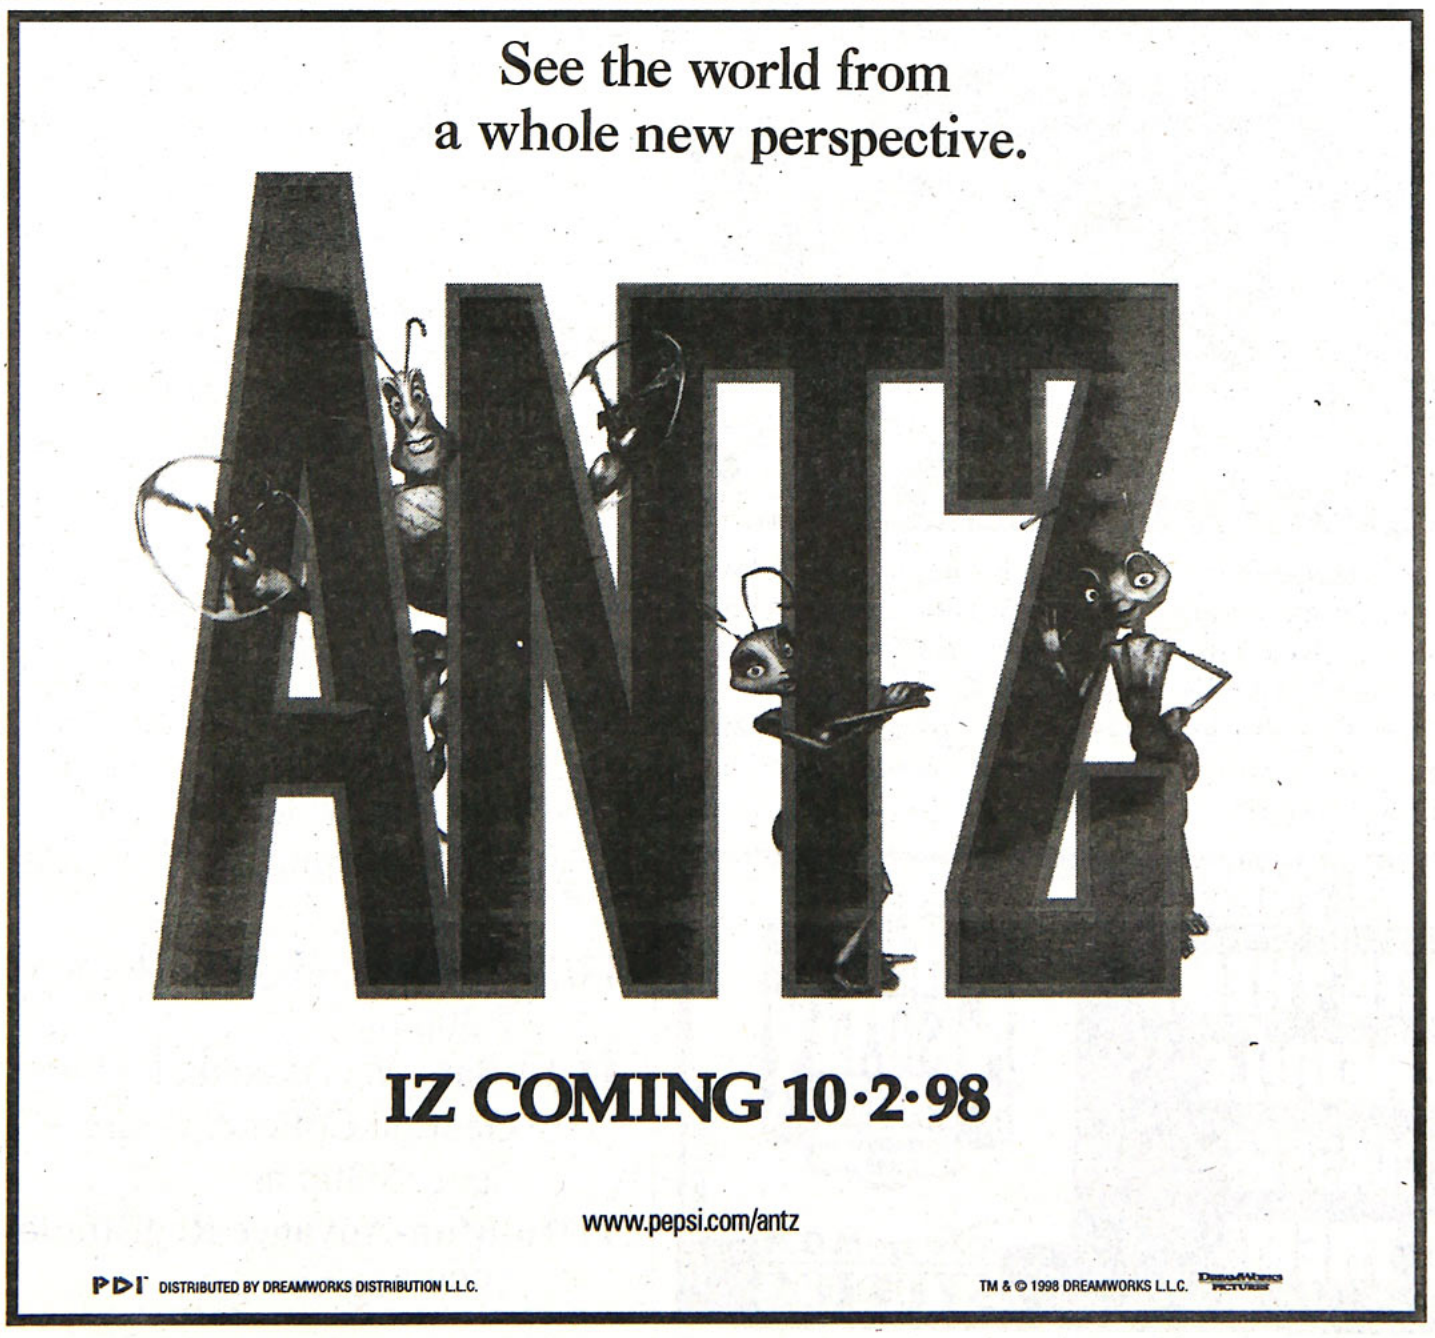


**Jon Akin kicks the ball.**
***Leonard J. Umhoefer JR. Photographer***

program which competes against schools which have runners on scholarships. In their second meet of the year, the Florida Tech Invitational, the men's team came in fourth, led by Mike duDomaine, who came in with a time of 37:46 in a 10k run. He finished 6th out of 51 runners and was named Sunshine State Conference Runner-of-the-week. The women's team ran a 5k and tied with Eckerd for third place. The team was lead by Megan and Kathleen Houtsma, with times of 21:49 and 22:33, and finished 10th and 11th individually. First year Coach Juby Aryssia is excited about the hard work of his team: "Although talent helps is this sport, you can achieve more in distance running through hard work and training." His team trains very hard at 6:00 every morning.

The **women's volleyball** team stands at 9-6. Coach Lent expects a strong finish from a young team which starts two freshmen and one sophomore. They have conference play to come, and Coach Lent has one main goal, "I want to receive a regional ranking." They will have the opportunity within the next two weeks when they play three regionally ranked teams. They rank second in the Sunshine State Conference in serving with an average of 2.62 aces per game. Shelby Jordan and Sarah Doctor each have 30 aces, which ranks them 3rd and 4th in the SSC.

The **men's basketball** team broke school records with a tie for second place in the conference. Coach Hanks looks forward to a more mature team which includes starters Brett Slaughter and Daniel Palmer. The Monarchs have brought in a strong recruiting class for the upcoming season. Coach Hanks is encouraged by the promise of a very talented team, "We're proud of the improvement our basketball team has made and, we're excited to continue to make further advancement."



# 8 Journalism Class to be Offered in Spring

**Lisa Bisordi**
**Assistant Editor**

There will be a new class offered in the Spring of 1999. The class will be entitled Journalistic Writing, and it will be taught by Mr. Kurt Van Wilt. It has been approximately five years since this class has been offered here at Saint Leo College. If it goes well next semester, and class enrollment is sufficient, it will be offered either every other Spring or every Spring semester.

The course will work on improving the students' format for writing journalism. The students will write stories, and the professor will critique the stories. There may be cases when the students are able to act as journalistic reporters and write stories regarding campus activities. The students will be able to chose their own interests to research and write about.

Professor Kurt Van Wilt, plans to use Saint Leo College's school newspaper, The Monarch, as a reference and aid throughout the course. Some of the articles written in the course may be submitted for publication in the school newspaper. In addition to integrating with The Monarch, the class may also be able to experience other forms of journalistic publications. Mr. Van Wilt hopes to offer a field trip to a major newspaper to explore the different aspects of putting together and printing a newspaper.

Journalists employed with various newspapers will be scheduled to speak to the students in this course throughout the semester. This will give the students an insight on what goes into forming articles. This is a very exciting opportunity for students who are interested in a career in journalism and those who are interested in general writing.
